

**STONE**  **TEK**  
sustainable stone products

Every year millions of pounds of granite waste from the fabrication industry is sent to the landfill. StoneTek, is transforming this waste stream into beautiful and sustainable landscape and interior stone products.

## GRANITE SPLIT STONE TILE

Granite is one of the most beautiful and durable of all building materials. It's natural characteristics and unmatched beauty have made it the most desirable stone in the industry. StoneTek recycled stone products are solid granite, never crushed or reconstituted. Our process utilizes only the waste material generated by the granite fabrication industry. You can feel good knowing your using a 100% recycled "Real Stone" products.

Bring your vision to life with one of our stunning premier blends or create a unique blend from the many colors available.

## EARTH BLEND

Earth Blend is a mosaic of natural beauty featuring every color of granite. This blend works well in any design and makes a statement while doing it.

## SAHARA BLEND

Charming and subtle, featuring only the soft, lighter shades of granite, Our Sahara blend has a low heat index and naturally lends itself into any hardscape design.

## DENALI BLEND

The Denali Blend combines only the darkest and richest hues of granite for a sense of sophistication and elegance that will define any space.

## TUMBLER

A timeless look, tumbled stone is a fantastic way to accent or enhance any hardscape design. Define walkways, highlight an area or create inlaid patterns. Available in Sahara, Denali, and Earth Blends.

## FLAGSTONE

Artistry in stone, the flagstone pattern offers a rugged natural feel with non symmetrical shapes and sizes. Available in Sahara, Denali, and Earth Blends.

*Escape to the outdoors, your sanctuary awaits.*

**Interesting Fact** - Nearly 35% of every granite slab fabricated is discarded as waste. Resulting in millions of tons in the landfill each year. Every 100 square feet of StoneTek granite pavers diverts over 2,500 pounds out of our local landfill.

*Unique - Beautiful - Sustainable*

# STONE TEK

sustainable stone products

*Unique - Beautiful - Sustainable*

StoneTek is a family owned Montana company, started in 2011 by Shane and Shawn Petersen.

Second generation tile and stone installers with more than 20 years experience. The Petersen's wanted to be more involved in the sustainability of the stone industry. In 2011 they began working with granite fabricators to developed a recycling program and divert millions of ton of granite waste from the landfill each year. StoneTek's mission is to transforms this waste stream into an exceptional Eco-friendly line of stone products and provide an alternative to everyday building materials.
